# The World's First 2-Level Trampoline

Double the fun with exceptional bounce on TWO linked horizontal bounce zones.

1

## IGLOO Zip Free Door

The IGLOO door provides a safe and exciting entry onto the Trampoline. Your kid/s will love crawling through the zip-free tunnel providing both a fun and safe entrance.

2

## Engineered to Endure

Built with top quality materials, a robust powder coated steel frame, 214mm springs and thick foam padding, the Infinity Leap will last for years of fun.

3

## Jump Safe Design

Safety considerations have guided the design of the Infinity Leap every step of the way. We've ensured no contact between jumper and springs, and a clever design on enclosure poles ensures fingers can't get trapped.

4

## Epic Bounce

Expect superior bounce with a unique dual suspension solution that features coiled metal springs working in unison with a bungee spring system.

TPTRINFINITY-SET

## TP Infinity Leap 2-Level Trampoline

- 50.8mm diameter, robust powder coated steel frame
- Top specification springs – 214mm for the best bounce performance
- PVC pads enclose 30mm / 20mm foam inners
- Easy put up / fold down system with YOYO enclosure
- Tested to International Safety Standards
- Assembled dimensions: 4.5m x 2.9m x 3.13m (L x W x H)

## Introducing the YOYO System

### Easy Put up

Getting the trampoline enclosure raised in the first place is stress free.

### Easy Take Down

This solves the problem that arises when you have to take the enclosure down because a storm is on its way but you are home alone.

### Easy Fold Away

Because taking the enclosure down is so easy for one person, it will happen on an everyday basis.
