SHIMANO ALTUS
7-SPEED

ALLOY
FRAME

250W REAR HUB
DRIVE MOTOR

FOLDABLE

Lightweight alloy frame can be folded down to comfortably fit on public transport and light enough to be carried while folded.

REAR RACK & MUDGUARDS

Functional features including a steel rear rack and mudguards make the City 20 practical in a whole range of situations. Strap your load to the rack while you're riding around to keep it secure and comfortable.

LITHIUM ION BATTERY

The E-CITY comes with a big 36v 2900mAh Panasonic cell to keep you going and going. Safety tested to strict international standards and comes with intelligent protection board for longevity and durability.

BE IN CONTROL

With a large backlit Bafang LCD Display and built-in controller, you'll be able to see your speed, trip stats (max speed, average speed, trip total and odometer), current power assist & battery charge.

SHIMANO ALTUS 7-SPEED

Face the shifting terrain of any urban environment with the 7 Speed Shimano drivetrain with Shimano Altus rear derailleur and Shimano Tourney RevoShift grip shifters.
