

# Global Fitness & Leisure – Drop Ship Program

Global Fitness and Leisure are now on ARL charge through for Kids Outdoor Play! We have been working closely with ARL to produce a Drop Ship Program that will work for Toyworld Stores.

The benefit of Drop ship is that you don't buy or stock the goods. The customer purchases the goods from you, you place the order with us and we deliver the product direct to the customer. You never physically handle the bulky item in store!

Drop Ship programs are generally set up for online orders, however we have worked to create a simple process in which you can offer this in store.

1. Customer places order in store at RRP + **Freight (Check your freight zone)**
2. Store places order with Supplier (Global) (Use order form at bottom of flyer)
3. Supplier (Global) deliver direct to customers.

You charge the customer suggested RRP, then add the Freight (don't forget to add GST to the freight) when you sell to the customer.

If you have any questions or wish to view your Freight Zone / Pricing, please contact below:
